

# THE VISION AND VOICE OF THE SFIHSS PUBLIC AUTHORITY

CIRCULATION 42,000 IHSS CONSUMERS AND WORKERS

APRIL 2018 • VOL. 17, NO. 1

## Welcome to the April 2018 Public Authority newsletter!

Each year, the San Francisco IHSS Public Authority considers how we can expand IHSS services and improve the quality of life for both IHSS consumers and home care providers.

As you will see in this newsletter, we are pleased to offer services for our consumers in our One Stop Center, and we now offer fingerprinting services for potential home care providers.

Did you know that the California Department of Social Services has started a new service that will allow IHSS providers the option to submit

their timesheets online through a new Electronic Timesheet System? Once your consumer opts in to approve electronic timesheets, a provider will no longer be required to mail in paper timesheets, among other things. As a provider, you need to have a laptop, tablet or a computer. The consumer only needs to have a working telephone. Please contact us for more information.

Check out our website, [www.sfihsspa.org](http://www.sfihsspa.org), or come by our office to see what else is happening at the Public Authority.

# Re:Imagine End of Life

Are you living life to its fullest right now? Have you prepared for your end of life? Do you know the end of life wishes of your loved one, friend? Culturally we all come at this from different perspectives, and these are big questions that it's hard to think about alone.

IHSS is a consumer driven program designed to empower you to make your own decisions. To that end, the Public Authority is pleased to highlight the work of [www.prepareforyourcare.org](http://www.prepareforyourcare.org). If you were unable to speak for yourself, who would you want to speak for you? And more importantly, what healthcare decisions would you want them to make. The week of April 16-22 was National Advance Care Planning Week. We want to encourage all of you to discuss your future health care and preferences with those closest to you. Now is the time to start the conversation about what you value in your life.

Please visit our One Stop Center at the Public Authority for more information and resources on how you can start this conversation. You can also access more information online at [www.prepareforyourcare.org](http://www.prepareforyourcare.org) which is a step by step program with video stories to help you have a voice in your medical care, talk with your doctors and give those closest to you peace of mind.
